

Requesting and viewing the COVID-19 Status Report (AIR 042A report)

What is the COVID-19 Status Report (AIR042A)?

The COVID-19 Status Report also known as the AIR042A identified report, is similar to the existing AIR011B report and helps providers identify their patients who are eligible but haven't had any COVID-19 vaccines.

Who can request a COVID-19 Status Report?

The report is available to:

- General practitioners, Nurse Practitioners and Midwives
- Medical practices
- Aboriginal Medical Services and Aboriginal Health Workers
- Community Health Centres and Community Nurses
- Councils
- Pharmacies
- Public Health Units
- Public Hospitals
- Department of Health and State and Territory Health Departments

Currently the report at a general practice level is only available for individual GPs (via the GP login or via delegations). A practice-wide report will be available soon.

What records will appear on the COVID-19 Status Report?

Patients who have not had any COVID-19 vaccines reported to the Australian Immunisation Register (AIR) by any provider will appear on the COVID-19 Status Report as long as they have attended your practice for a Medicare claimable service within the specified period.

The AIR records all vaccines administered and reported to the AIR. If a person has received their COVID-19 vaccine from another provider including other GPs, pharmacy or state/territory vaccination hubs, it is mandatory to report these vaccination encounters to the AIR. If a patient has received their vaccine elsewhere and it has been reported to AIR, they will not appear on this status report as overdue.

Will I be able to request a report for individuals who have had only one dose of a COVID-19 vaccine?

Further functionality for this report is under development to allow providers to identify individuals at the practice who have received one dose of COVID-19 vaccine and are due or overdue for their second. This functionality will be implemented in early 2022. Further advice will be provided when the new report becomes available.

How do I request and view a COVID-19 Status Report?

The following screenshots provide a simple guide on how to request and view a 42A report

REQUEST REPORT	
Log onto AIR site and select Reports from the main menu	 <p>Australian Immunisation Register</p> <p>Home Claims Identify Individual Payment Statements Provider Menu Reports</p> <h3>Welcome</h3> <p>The AIR is a national register that records all vaccinations given to individuals of all ages, including National Immunisation Program (NIP) schedule vaccines, flu, shingles, travel, and COVID-19 vaccines. The AIR is administered under the <i>Australian Immunisation Register Act 2015</i> and AIR data is protected under the <i>Privacy Act 1988</i>.</p> <p>Please ensure you are aware of the Terms and conditions of accessing this site.</p> <p>The AIR site provides access to the following functions and information:</p> <ul style="list-style-type: none">• Claims - upload new claims or view submitted claims• Identify Individual - search for an individual• Individual Details -<ul style="list-style-type: none">• view an individual's immunisation history and/or evidence of immunisation• record immunisation encounters• view and/or print an immunisation history statement• record a catch up schedule• edit an immunisation encounter where incorrect details were previously submitted (if you submitted the original record to the AIR)• Payment Statements - view your payment and financial statements• Provider Menu - review location, email and address details• Reports - generate and view immunisation reports
